

# The Ironclad's Hidden Rest Site

**COMPLETE TO COLLECT**  
**Brilliant-Cut Zircon**  
Level 4 · 5 Glints

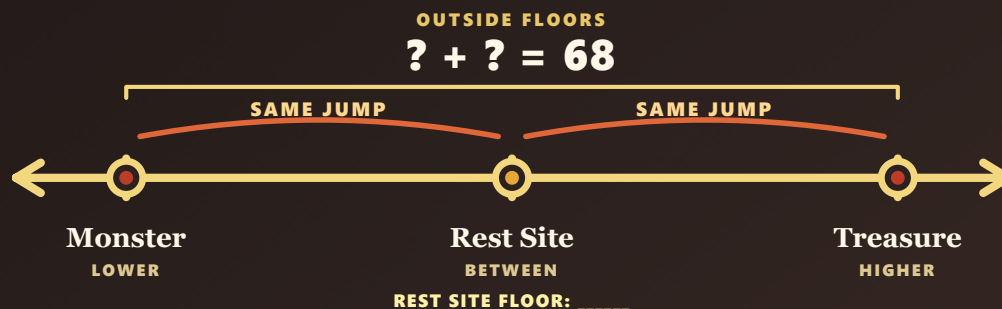

In Slay the Spire, the Ironclad marks three different Spire rooms on whole-number floors. From lower to higher, they are the Monster, Rest Site, and Treasure. The Rest Site is the same distance from each outside room. The Monster's hidden floor number and the Treasure's hidden floor number add to 68.

Ironclad's route winds upward toward a hidden Rest Site.

## YOUR CHALLENGE

**What floor is the Rest Site on? Explain why its floor is forced even though the two outside floor numbers and the jump size are hidden.**

Write the Rest Site floor on the number line. Use separate paper for your equation and explanation.
